REQUEST TO COMPLETE NOTICE OF ALLOWANCE

Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Sir:

In reviewing the application identified above upon allowance, the undersigned has noted:

The Notice of Allowance shows the following discrepancies:

In the last four lines of page 2 and lines 1-6 of page 3 of the Examiner's statement of reasons for allowance provided with Notice of Allowability, several typographical errors have been noted with respect to the language of independent claim 19 and what the examiner has set forth regarding this claim. Please correct these errors as follows:

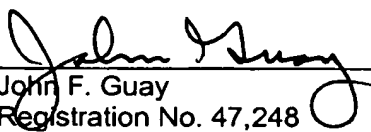

"The following is an examiner's statement of reasons for allowance: claim 19 has been allowed because the available prior art ~~fail~~ fails to teach an optical device having a back facet and a front facet opposite to each other, said device structure including the specific structure ~~limitation~~ limitations of a window region arranged between said modulator output end and said device front ~~face~~ facet, said device is arranged such that the modulated light output from said modulator is propagating essentially in a direction[[,.]] that is angle angled with respect to a normal of said device from ~~face~~ facet, said modulator output end is tapered, and said front ~~face~~ facet is angle angled with respect to said back face facet such that said modulated light is output from the device via said front ~~face~~ facet in a direction substantially parallel with a normal of said back facet ...."

The U.S. Patent and Trademark Office is therefore requested to correct this discrepancy and issue a corrected Notice of Allowance.

Respectfully submitted,

BURNS, DOANE, SWECKER & MATHIS, L.L.P.
